Quantum

### System Overview

Xertuert System is operating at optimal quantum levels. All neural interfaces are synchronized and security protocols are active.

```
xertuert.init(quantum=true,  
neural=true)  
system.activate(protocol="quantum_  
neural.sync(mode="full_spectrum")  
security.enable(max_level=true)
```

Run Quantum Diagnostic

- > System initialized successfully
- > Quantum core activated
- > Neural interfaces synchronized
- > Security protocols engaged
- > Welcome to Xertuert System
