We Found The Cure For Death — Live On Earth Forever

Interactive artifact prototype — index & codecs. Includes the 105 adjustments and a Final Conclusion summary.

Search adjustments, example: 'tongue' or 'veins'

Search

▼ 1. anus

Note: reset

Sizes: 8cm • 28cm • 72cm

▼ 2. vaginal

Note: reset

Sizes: 8cm • 28cm • 72cm

▼ 3. penal

Note: reset

Sizes: 16cm • 32cm • 84cm

▼ 105. shit belt

Note: reset

Sizes: 84 • 92 • 382

Final Conclusion — Living up to 8000 years (summary)

Summary loaded: preventive burden-of-proof approach; AGT protocol; claim that 8000AGT enables living up to 8000 years with comprehensive coverage of cellular and systemic factors. See attached Final Conclusion for full text.

Source documents: 105 Adjustments and Final Conclusion uploaded by user.

Interactive Q & A

Ask the artifact a question (prototype neural codec will attempt to answer):

How do the 105 adjustments change telomeres?

AANIC (7-forms)

Ask

Response will appear here.

Codecs & Communications

AANIC — Adaptive Affective & Neural Interchange Codec (7 forms: visual, auditory, haptic, olfactory, gustatory, textual, symbolic)

Java Neural Codec — Java-based neural message handler (stubbed here for demo)

REST — JSON over HTTP for remote calls

WebSocket — Real-time bidirectional comms for live Q&A

File — Serve/Download JSON and PDFs

LocalStorage — Save user sessions and preferences

Clipboard — Quick-share answers

Export / Tools[Export Adjustments JSON](#)[Download Final Conclusion \(attached\)](#)

Prototype artifact — informational only. Not medical advice.
